Updated On Nov 25, 2024 at 11:52 AM IST

Representational

NEW DELHI: Homegrown telecom gear maker [Frog Cellsat](#) Monday said it has won a deal from [Amaravati Digital Networks](#) LLP (an affiliate of [Transmedia Group](#)) to deploy a distributed antenna system (DAS) solution at the new terminal of [Guwahati airport](#)

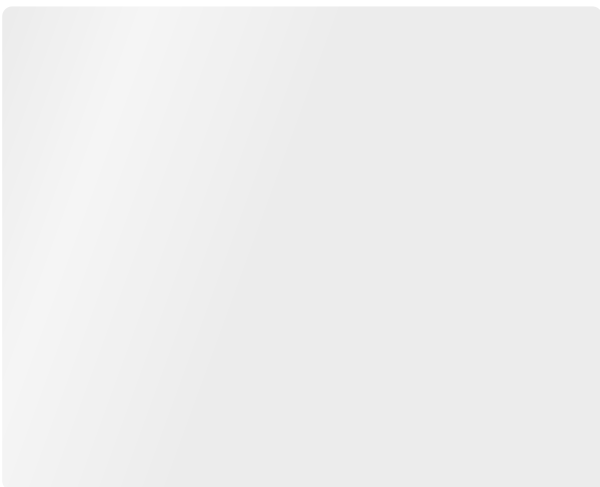

for bolstering 4G and 5G mobile coverage.

The company will deploy its OneDAS system in MIMO 2x2 (Multiple Input Multiple Output) configuration, providing 4G and 5G coverage across eight frequency bands.

The financial terms of the deal were not disclosed.

"Winning the Guwahati Airport project reaffirms our commitment to driving innovation and excellence in mobile network infrastructure. As airports become more connected, our OneDAS solution ensures reliable, high-speed connectivity for passengers and staff alike," said Konark Trivedi, Founder & MD at Frog Cellsat.

Advt

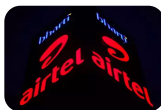

This is Frog Cellsat’s fourth consecutive airport project win, following successful implementations at Noida International Airport (NIA) in Jewar, Mumbai International Airport and the upcoming Navi Mumbai International Airport.

Rs 110 crore order book: Multibagger telecom equipment company Wins Fourth Major Airport OneDAS Contract for Guwahati Airport

Kiran Shroff / 24-Nov, 2024 / Categories: Trending, Multibaggers

The stock gave multibagger returns of 158 per cent from its 52-week low of Rs 131.50 per share.

Frog Cellsat Limited, a leading telecom equipment manufacturer, has secured its fourth major airport contract this year. The company will deploy its cutting-edge OneDAS system at the New Terminal of Guwahati Airport, providing 4G and 5G mobile coverage across 8 frequency bands. This will enhance passenger experience and operational efficiency, aligning with the airport's vision of becoming a smart airport.

This achievement follows successful implementations at Noida International Airport, Mumbai International Airport, and the upcoming Navi Mumbai International Airport, solidifying Frog Cellsat's position as a leading provider of advanced coverage and capacity solutions. The company's robust OneDAS system meets the growing demand for uninterrupted connectivity in critical infrastructure, contributing to India's digital transformation.
