NEW DELHI: Homegrown telecom gear maker [Frog Cellsat](#) Thursday launched new products, the Smart Mini Booster, the [5G](#) Active [DAS Solution](#), and a Very High Frequency (VHF) repeater at the ongoing [India Mobile Congress](#) (IMC) 2024 which are aimed at enhancing connectivity in critical sectors.

The said its 5G Active DAS Solution is designed to provide seamless connectivity at large-scale venues such as airports and metro systems, aligning with the evolving needs of modern communication networks.

“Our suite of technologies demonstrates our unwavering commitment to advancing mobile connectivity and addressing the evolving demands of the telecommunications industry,” said [Konark Trivedi](#), Founder & MD of Frog Cellsat.

Advt

The company highlighted its Noise Shield solution, which eliminates interference from uplink signals to improve cell coverage, voice quality, and data capacity.

The company said during trials, it recorded up to 40 dB noise reduction and a 400% increase in data traffic at various sites. The Active DAS solution, on the other hand, supports eight different frequency bands and up to four telecom operators simultaneously.
